

Educational Programs

Why not take your class **outside** today?

Over the past 15 years, many Thames Valley and London District Catholic School Boards have taken advantage of our blossoming gardens and green spaces to enjoy programs we have developed with teachers based on the Ontario curriculum and TRIBES program principles. This spring, we are proud to offer three exciting units:

“ *The program fit very nicely with curriculum expectations for physical education, language, listening, speaking, and helped my students learn problem solving and teamwork skills. Many of my kids really stretched themselves outside their comfort zone, which I know gave them a lot of confidence, and all were successful. I will definitely recommend this program at East Park to my colleagues.* ”

Linda Smith
Wyoming Public School

Trust

Who will catch you if you fall? Basic trust exercises – falling and catching, wind in the willows, and more – teach students about trust and responsibility. The focus is on safety, with students understanding the role their behaviour plays in building relationships.

Communication

Summer is almost here. Do you know your safety rules? The Communication unit uses summer safety issues (water safety, injury prevention, etc.) as the backdrop for activities that teach kids how to make smart decisions together and communicate with each other.

Cooperative Problem Challenge (Team Building)

Problem solving and teamwork are important life skills. The Cooperative Problem Challenge teaches both as students think and work together on a fun challenge that can't be completed unless everyone does his or her part. Along the way, participants learn why cooperation is so important.

All of our programs are flexible and can be custom designed to fit your specific needs. Whether you're interested in a 30-minute "warm-up" activity or a full day at East Park, we have something you and your students will enjoy and remember. The basic program cost is \$5.00 per student. Available services include washrooms, changerooms, and refreshments.

Thank you very much for your consideration. If you are interested in booking an East Park program, or need a beautiful outdoor space for your own activity, please feel free to give us a call. We look forward to learning with you!
